

Thank you so much for your excellent, entertaining and educational presentations to our faculty, students, staff and members of the public. We heard many positive comments on both your morning and afternoon presentation. Faculty and English or History students appreciated your in-depth knowledge of Twain and his era. Other students and the public were introduced to some less known aspects of Twain's life and work. Mission accomplished!

It was fun to see how people interacted with you as you walked across campus. And many even got the character right. Bringing Twain to campus was a good choice, as he had such great observations on American life, some definitely still valid. It was during the question and answer sessions after each presentation, that you really impressed people with your deep knowledge of Twain. Each and every question was answered with a well thought out response, very much in character with Twain.

Again, thank you very much for visiting us and enlightening us with both Twain's and your own wit. Everyone involved much appreciated their interactions with you and Twain.

Sincerely,

Teri R. Switzer, Dean
